SUMMARY

Results-driven iOS Developer with 8 years of experience designing and developing high-performance, scalable applications. Proficient in Swift, SwiftUI and Objective-C, with expertise in UIKit, Core Data. Adept at building intuitive user interfaces, optimizing app performance, and implementing best coding practices. Passionate about delivering seamless user experiences and collaborating in agile environments to create innovative mobile solutions.

WORK EXPERIENCE

Sr. IOS Developer, Nexios Technologies LLP   Jun 2020 - Present

- **Led iOS Development & Team Management -** Directed end-to-end app development, mentored developers, and ensured high-quality code standards.
- **Project Planning & Client Communication -** Defined timelines, managed Jira tasks, and conducted client meetings to align on project goals.
- **Code Review & Repository Management -** Reviewed developer code, optimised performance, and maintained repositories on GitHub/Bitbucket.
- **Design & Implementation Oversight -** Evaluated UI/UX designs, provided technical guidance, and ensured adherence to best practices.

IOS Developer, JKSOL Infotech   Feb 2019 - May 2020

- **iOS App Development & Deployment -** Developed and uploaded iOS applications to the App Store, ensuring compliance with Apple guidelines.
- **Certificate & Profile Management -** Created Apple developer certificates, provisioning profiles, and signing configurations.
- **Team Support & Issue Resolution -** Assisted developers in debugging and resolving technical issues to ensure smooth development.
- **Project Timeline & QA Coordination -** Worked within deadlines, sent builds to QA via TestFlight, and ensured timely project delivery.

Jr. IOS Developer, Onus Infotech   Jun 2017 - Jan 2019

- **iOS App Development & Issue Resolution -** Developed applications and fixed bugs to ensure smooth functionality and performance.
- **Learning & Skill Enhancement -** Continuously learned from senior developers to improve coding practices and adopt best methodologies.
- **Exploring New Technologies -** Proactively learned new frameworks, tools, and best practices to enhance development skills.

EDUCATION

Bachelor of Science in Information Technology (BSC.IT) .   2013 - 2016
Shree M. & N. Virani Science College

- **Focused on core programming languages and software development methodologies.**
- **Proficient in C, C++, Java, and PHP.**
- **Developed a strong foundation in computer science principles, algorithms, and database management.**
- **Design & Implementation Oversight -** Evaluated UI/UX designs, provided technical guidance, and ensured adherence to best practices.

ADDITIONAL INFORMATION

Technical Skills
- **Programming Languages:** SwiftUI, Swift, Objective-C
- **iOS Frameworks:** UIKit, Foundation, Core Location, StoreKit, Core Animation, AV Foundation, Address Book, Contacts, Security
- **Design Patterns:** MVC, MVVM, Cocoa Patterns
- **Data Storage & Management:** Core Data, SQLite, Realm, CloudKit, File System
- **Networking & APIs:** RESTful & SOAP Web Services, Alamofire, Firebase, Socket Programming
- **UI Design:** Storyboard, XIB, Auto Layout
- **Version Control & Collaboration:** Git, Bitbucket, SourceTree, CocoaPods
- **App Deployment & CI/CD:** App Store submission, TestFlight, Xcode Cloud
- **Multimedia & Integration:** Live Streaming, VOIP Calling, Social Media Integration
- **Third-Party Libraries:** Firebase, Alamofire, Realm, Parse SDK, Crashlytics
- **Location Services:** GPS, MapKit, Location Services
- **Real-time Features:** Live Activity, Live Message Transfer

PROJECT EXPERIENCE

Care Coordinations

- **Description:** An app that helps healthcare professionals coordinate patient care, track progress, and communicate with team members and patients.
- **Skills Used:** Swift, Core Data, Firebase, Push Notifications, REST APIs, User Authentication, Live Activity

Homecare2GO

- **Description:** A healthcare service app that allows providers to schedule appointments and manage patient care efficiently on the go.
- **Skills Used:** Swift, Core Data, Push Notifications, UIKit, REST APIs, Firebase, CloudKit

Stratafy

- **Description:** A comprehensive property management app that simplifies managing strata schemes for property owners, managers, and tenants.
- **Skills Used:** Swift, UIKit, Core Data, Push Notifications, REST APIs, User Authentication

UPTaxi

- **Description:** A taxi booking app for passengers and chauffeurs, allowing users to book rides, track drivers, and handle payments.
- **Skills Used:** Objective -C, MapKit, REST APIs, Google Maps Integration, Payment Gateway Integration

KClub

- **Description:** A social networking app for club members to interact, manage events, and access exclusive content.
- **Skills Used:** Swift, Firebase, Push Notifications, REST APIs, UIKit, Social Media Integration

Akhbar AlKhaleej

- **Description:** A news app providing users with the latest local and global news, articles, and multimedia content.
- **Skills Used:** Swift, UIKit, Core Data, REST APIs, Push Notifications, JSON Parsing
